

Pneumatic Drill Mixer

General Information

- The Pneumatic Drill mixer replaces electric and hand paint mixers.
- The mixer is designed to thoroughly mix 5-gallon paint cans, thus increasing the life expectancy and performance of the paint.

Operational Information

- Mixer can be removed from the drill and cleaned in the paint gun cleaning station.
- Can provide a good initial mix to the paint before it is added to the paint dispensers.
- Check oiler on airline for paint mixer
- Mix paint well before adding to dispenser
